

**ד"ר נילי מנדלבלית**, מנהלת מחלקת חלל, תחבורה, ננוטכנולוגיה, חומרים, ייצור ותהליכים ותשתיות מחקר, ISERD, רשות החדשנות

## C"V

Dr. Nili Mandelblit is the director of AeoSpace, Transport, Nanotechnology, Advanced Materials, and Advanced Manufacturing programs in ISERD - the Israel-Europe R&D Directorate, operating under the Israel Innovation Authority. ISERD is Israel's official contact point for all activities of the European Union Research Framework Program. In her role, Nili serves as the head delegate of the Israeli government to the European Commission's research Programme Committees in the above mentioned fields.

Nili holds a B.Sc. in Computer Science from the Hebrew University of Jerusalem, and a Ph.D. in Cognitive Science from the University of California, San Diego. Nili conducted her post-doctorate research in Paris, France in the Ecole Polytechnique, CREA. During the years 1998-2009, Nili conducted a career in the High Tech industry in Israel as Director and A-VP of product management in a number of international software companies (Amdocs, Aladdin, Pontis). In 2009-2010, Nili served as a lecturer at the MBA (Master of Business Administration) program of Ben Gurion University of the Negev.
