## IN2IT - the Community of Practice

Project IN2IT aspires to offer an **innovative technological platform for academic international relations**.

The Community of Practice is the place where researchers, teachers, and administrative staff from Higher Education Institutions (Universities, Colleges, etc...) can share experiences, ideas and needs with the objective to create new relations and **joint projects** for potentiating internationalization capabilities.

The IN2IT project was awarded by the Education, Audiovisual and Culture Executive Agency – EACEA in the Erasmus Plus Programme for education, training, youth and sport. The IN2IT is a **three-year project (2015-2018) that will be executed by 14 partners from Israel and the EU.**

Since the community of practice is a working area among project partners the **access is at the moment restricted** only to registered users coming from Universities and Colleges directly involved in IN2IT Project.
