# IN2IT

## INTERNATIONALIZATION BY INNOVATIVE TECHNOLOGY

Aya Elovits CIO

13/3/2017

SapirIT

# Objectives

1. Overview
2. Requirements and solutions
3. Demo

The screenshot displays the in2it Learning Management System (LMS) interface. At the top, a blue header features the 'in2it.' logo and the tagline 'Internationalization by Innovative Technologies'. Below the header is a navigation bar with links for 'Home', 'Calendar', and 'Contact LMS Team'. The main content area includes a welcome message, a list of 'NEW capabilities' with icons for 'BigBlueButtonBN', 'Forum', 'Database', 'Organizer', 'Wiki', and 'Workshop', and a 'Personal Blogs' section with a 'Contact LMS Team' link. Three featured content cards are visible: 'Essential Skills', 'English for Internati...', and 'Embracing Diversity...'. On the right side, there is a 'Navigation' menu with links to 'Dashboard', 'Site pages', and 'My courses'; an 'Online users' section showing 'Aya Elovits' (last 5 minutes); and a 'Calendar' for January 2017.

Welcome to In2IT Learning Management System.  
In2IT aims to develop and implement an innovative technological infrastructure for the purpose of advancing internationalization in higher education, and thereby to expand the practical applications of internationalization in Israeli academic colleges, to strengthen the capacities for teaching, learning, research, and training, and to improve the quality and positioning of Israeli state-funded academic colleges in higher education.

Learn our NEW capabilities:

- BigBlueButtonBN
- Forum
- Database
- Organizer
- Wiki
- Workshop

Personal Blogs

- Contact LMS Team

Essential Skills

English for Internati...

Embracing Diversity...

Calendar

January 2017

Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28

# Requirements

requirements concerning to groups/teams:

- Create groups as to specific parameters of the students
- Force groups to have students from several institutes
- Let students choose their partners to the group
- Let students in a group collaborate their materials so each team has a closed separate co-creation 'work environment':
  - For: Brainstorming e.g.: Forum, chats....
  - Voting for ideas
  - Create files together e.g.: Wiki, Google Docs
  - Repository, Gallery
- Teachers can watch what is happening in each group

# Recommended solutions

Most of the requirements can be fulfilled by choosing the right way of using groups:

- In2it platform supports student-led activities and collaboration, especially in combination with using groups:
- Use one course to teach in multiple course sections. Each section can be engaged to different group.
- Filter the assignment submissions, media collection, gallery, wiki or other activities for a particular section of students
- each team can have closed separate co-creation ‘work environment’

# Starting point

- In order to gain the advantages from using groups you need:
  1. Decide what and why you need groups in your course
  2. Decide on the way you want the groups will be established: random, filtered, forced...
  3. Create groups before you start to place the course activities in the platform: decide on the number of groups you need and create them with one member
  4. Start to design your course platform as to the groups

# Creating the groups

- How to create your groups:
  1. If there is a need that the students will choose their partners:
    - ✓ They can introduce themselves in DB or profile tool
    - ✓ Then you can use a g-doc or DB for sign to groups
    - ✓ Import the groups to In2It from excel (csv)
  2. You can use the auto creation of the platform
  3. You can create the groups manually or through excel
  4. All of this must be done after the students were engaged with the course (at first you create dummy groups)

# Section for each group

Workplace for group A

Workplace for group B

Workplace for group C

# Tools for each group

## Workplace for group A

In this area each student that belongs to group A can add, write, comment, and read materials that belong to the group.
