# Brainstorming Session: Sustainability WP-9
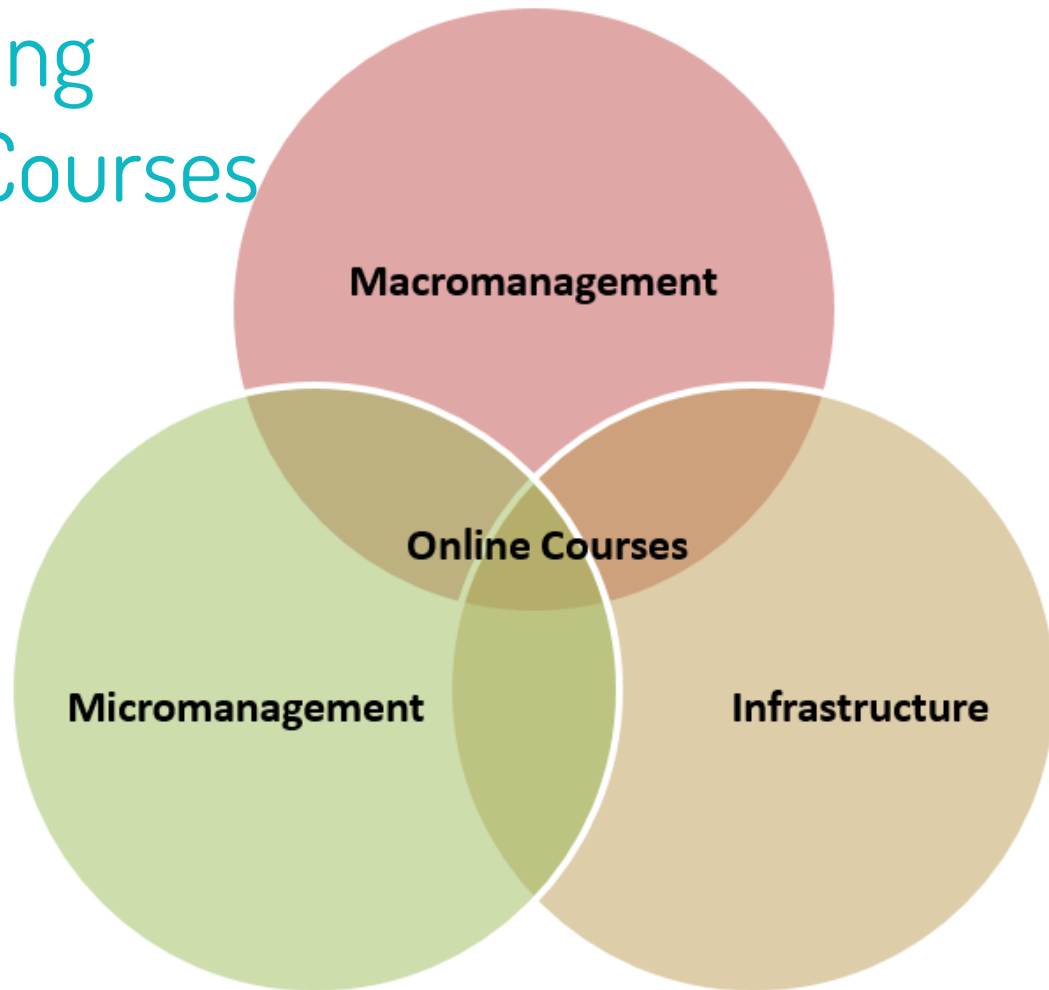

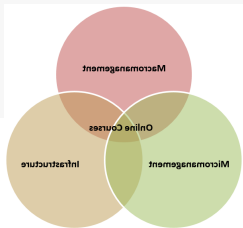

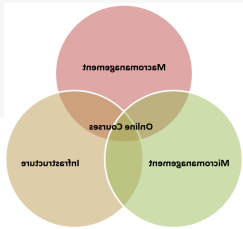

# Sustaining Online Courses

- **What should be sustained? How? By whom?**

- Where will the server sit?

- Who will manage the server & LMS
  (technical issues, updating etc.)?

- Who will mentor lectures for LMS use?
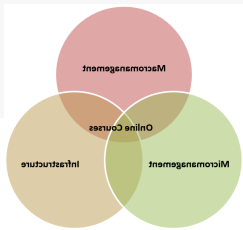

- How will this be funded?

?

# Infrastructure

- **What should be sustained? How? By whom?**
- Who is in charge of each course (college, person)?
- How will new collaborations be integrated?
- How will schedules be coordinated?
- What protocol will be used for changes/updating?
- How will grading be done for individuals?

?

**Micromanagement**

- **What should be sustained? How? By whom?**
- How will partners be informed and updated?
- What and how will PR be made (additional participants)?
- What efforts will be made to reuse courses?
- Are the courses going to be evaluated/reported?
- How will this be funded?

?

## Macromanagement

lecture mobility
student exchange
collaborative research...

**What About?**
