

Fraunhofer solutions for better crisis response and resilience

Prof. Reimund Neugebauer, President of the Fraunhofer-Gesellschaft

Prof. Dr.-Ing. Reimund Neugebauer, president of the German RTO Fraunhofer-Gesellschaft, presents strategies for coping with crises and global challenges. His focus will be on the unique role of Fraunhofer in the German innovation system and the resulting cooperation policies with the national government and the EU. In addition, the Fraunhofer expertise in terms of risk management and structural adjustments will be presented. Moreover, specific examples and tools for combating crises such as the COVID-19 pandemic will be discussed.
